

FLEX-MAT®

HIGH VIBRATION WIRE SCREEN

MAJOR FLEX-MAT APP

WHAT IS THE MAJOR FLEX-MAT APP?

The MAJOR Flex-Mat App is a cutting-edge digital solution designed for mining and aggregate producers, as well as MAJOR dealers, to streamline screen media management and optimize production. It combines the functionality of The MAJOR App with the FLEX-MAT Sensor App into a single, user-friendly platform. With advanced tools like RFID reader technology, vibration data analysis, and augmented measurement capabilities, it's your ultimate resource for productivity and efficiency.

FLEX-MAT®

HIGH VIBRATION WIRE SCREEN

HOW DOES IT WORK ?

RFID Technology: Scan your FLEX-MAT screens with your smartphone to instantly access critical product information, eliminating the need for additional reading devices.

- **Augmented Measurement:** Use your phone's camera to measure screen media dimensions for screens without RFID features, ensuring accurate sizing and reducing reordering errors.
- **FLEX-MAT Sensor Integration:** Place the vibration sensor on each corner of your machine to collect and analyze vibrational data. View real-time results on your app for quick diagnostics and optimization.
- **Cloud Connectivity:** Data is stored locally during offline usage and uploaded to the cloud for easy access via web browsers once a signal is available.

ACCESS MAJOR'S LIBRARY

- Press releases, articles.
- Marketing materials and expert documents.
- Product information.

TAKE ADVANTAGE OF MEASURING TOOLS

- An augmented reality (AR) measuring tool.

RETRIEVE FLEX-MAT ID ENABLED READING

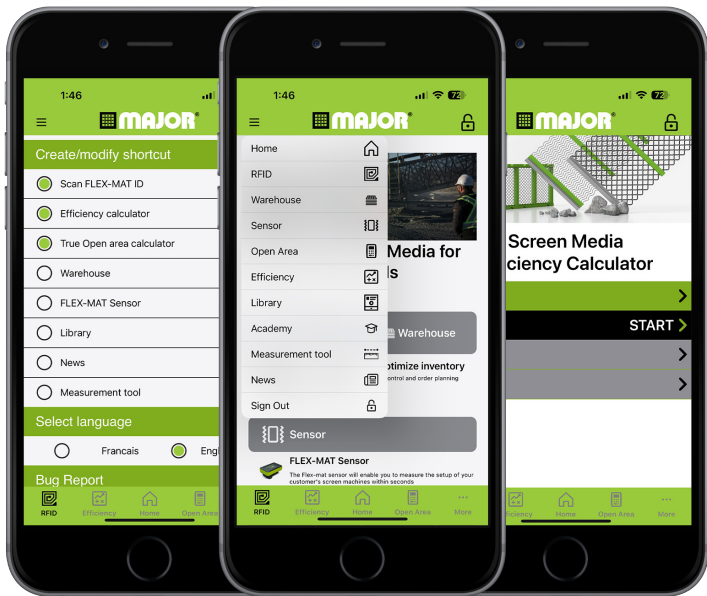

- Access a digital record of panel specifications

USE VIBRATION TOOLS

- Operate the FLEX-MAT Sensor through the app.

WAREHOUSE INVENTORY TRACKER

- Organize screen media specs and inventory in one place.
